6. Scorpio interview for IMU DNS **February 2019 batch on 13th and 14th December 2018.**
7. **08th and 22nd December** - Well baby clinic

DAYS GONE BY IN T S RAHAMAN

Professional training marks the end of teenage years as we dive into the ocean of new beginnings and possibilities. This golden period prepares us for all the challenges we are bound to face in life and creates a strong foundation of knowledge.

My experience at T S Rahaman has taught me some fundamental principles that life is uncertain, unpredictable and has many ups and downs. It's been a year in T S Rahaman, and I still remember my first day in college, surrounded by unfamiliar people in an unfamiliar place. And everyone else felt the same too. It took a week to get familiarized and accustomed to the disciplined schedule. Everything was new for us, our teaching faculty, classmates, hostel, food and campus. Everyone had to be emotionally strong as many of us were away from home for the first time. But there were a few things that really impressed me. The spotlessly white uniform adds a special pride and uniqueness to this career. Wearing the uniform during shore leave makes one stand out from the crowd. And the physical training that is so greatly emphasized upon. The weekly parade training and finally the grand display during the Passing-Out-Parade is a great honour for all the budding seafarers.

Our DNS course was for a year, but time shot past like an arrow. It feels like I joined this college just a few months ago. One of the most unforgettable moments here has been the Passing Out Parade when I was bestowed with the 1st runner-up award. I never imagined all that hard work would pay off one day. I always took pride in my work, put in my best effort, worked punctually and studiously, regardless if I take home an award or not, but fortunately it paid off and I'm proud of what I have achieved. Marching up to the dais to receive the award was an awesome experience.

Our days here are numbered. In a few weeks we will have to bid farewell to the people and place where we had so many good memories. We all had similar interests and ideas, aim in life, that built a strong bond with our teachers and friends.

One fine day, when we look at the still memories in the innumerable photographs clicked, a pleasant smile will remind us of our days in T S Rahaman. That's the beauty of college life. My memories here, both good and bad, will stay with me forever, long after I climb the ladder of success.
